

Description

Patch GPS antenna for tracking and navigation systems, e.g. cars, with easy mounting on the dash board or the windscreen.

Technical characteristics

Mounting position	Car roof, board	VSWR	< 2:1 max.
Application	Tracking and navigation systems	Cable type	RG174
Nominal impedance	50 Ohms	Cable length	2,5 m
Frequency	1575,42 MHz	Power handling	30 W
Polarization	Horizontal	Housing size	15,25 x 43,3 mm
Gain	26dB at 3V 28dB at 5V	Connector	SMA (m), FME (f), SMB (f)
		Order no.	A-GPS-PB-250SMA A-GPS-PB-250FME A-GPS-PB-250SMB
